

Interstuhl North America had another incredibly successful NeoCon in Chicago, attracting thousands to the showroom to see the newest product introductions.

The new 3D Armrest for VINTAGEis5 was on full display and there was overwhelmingly positive feedback on the new JOYCEis3 chair and UPis1 cushion. Comments on the showroom were "most fun and colorful" showing and that JOYCEis3 was the "most innovative new task chair" at the convention! The S 4.0 impressed all audiences and the interactive station allowed users to play with the technology in real time.
