

Interstuhl at the Stockholm Furniture Fair 2015

This year Interstuhl exhibited for the second time at the Stockholm Furniture & Northern Light Fair. From 3rd to 7th of February 2015 the visitors could experience the new Interstuhl products with all senses. TANGRAMis5, the new sofa from the Interstuhl collection was the centre of attraction for the visitors. The sofa landscape also served as a comfortable lounge at the stand, which was completed by a bar with barstools from the KINETICis5 family.

The visitors were mainly dealers, architects, end customer and ergonomics experts from the Scandinavian countries. For Interstuhl the participation at the fair was another step to expand the presence in the Scandinavian market and to strengthen the brand Interstuhl in this region.
