

After 3 extremely successful years, Clerkenwell Design Week (21.05 - 23.05.2013) has established itself as the UK's leading independent design festival and one of the most acclaimed trade events on the international design calendar. It was the ideal location to launch and display interstuhl's new products at its fantastic showroom in London. Within an open and welcoming atmosphere, visitors admired the comfort, design and versatility of EVERYis1, KINETICis5, NESTYis3, VINTAGEis5 and Pios-2. Interstuhl has yet again proven its ability to reinvent itself and to stand out as an innovative player within the UK furniture market.

Interstuhl also hosted talks by FIRA and Design Council. The presentation by high-profile architect David West of the Design Council in particular, was met with great interest in the design community and successfully concluded Clerkenwell Design Week 2013.
