

This year the fair Office Next Moscow went into the third round. From 14th to 16th of May, more than 2800 visitors went to the exhibition and conference halls at the Design Centre Artplay in Moscow. The presence of interstuhl has never been higher. Beside the German fair pavilion, interstuhl's products were also presented on the stand of our Russian partners SOLO Office Solutions and Büromöbel Rus. Under the German pavilion, we exhibited our classic Silver. Our Partner SOLO displayed office solutions including chairs, boards and lights with their strategic suppliers' interstuhl, Sinetica and Phillips. Interstuhl received excellent feedback from its visitors for MOVYis3 and Pios-2. Our partner Büromöbel Rus, showed interstuhl and bimos products. The main focus was AirPad and Silver, as well as the bimos highlights Fin and Neon. All in all the Office Next Moscow was a successful fair with the high presence of interstuhl.
