

We have successfully passed our recertification audit which took place from 7th May ? 10th May 2012!

This time it was not only a "monitoring audit", but a re-audit which takes place every 3 years and therefore, has even greater importance. Hence, our combined quality and environmental management system was examined on its effectiveness and compliance with DIN EN ISO 9001:2008 and DIN EN ISO 14001:2009. Furthermore, our environmental statement was revalidated in accordance to EMAS III (Regulation (EC) No 1221/ 2009) in Meßstetten-Tieringen.

The audit was conducted by the LGA InterCert GmbH (Auditors: Mr Peter Fischer, Mr Rainfried Heinrich), which has become 100% owned subsidiary of TÜV Rheinland.
